

Aussie Pro-Operator by TST Comfort, Function and Safety

Dyneema® is the world's strongest fibre. (15 times stronger than steel on a weight for weight basis). This makes it possible to offer high levels of protection against water jetting hazards even with lightweight fabric.

Being much thinner and more flexible than traditional materials, such as leather, cotton and metals, products made with Dyneema® fibre will be very comfortable.

The comfort, combined with higher protection, mean gear is likely to be worn at all times.

Dyneema® is a registered trademark of Royal DSM N.V

PROTECTION LEVEL 5/5/2	
	ROTOR 500 bar/7500 psi
	FLAT 500 bar/7500 psi
	SINGLE 200 bar/3000 psi
CE 89/686/EEC	

500 BAR HOSE SHROUDS

Hose ruptures account for 90% of operator injuries.

The hose shroud is placed on the hose at the connection to the gun. This provides effective protection for the operator as it has been tested for 500 bar / 7500 psi. An adjustable strap holds the hose shroud securely in place.

Length: 750 mm
Diameter: 41 mm
Weight 0.2 kg
