STEAM CLEANERS

Aussie Super Indy

ELECTRIC DRIVE HOT WASH & STEAM CLEANERS BUILT FOR AUSTRALIAN CONDITIONS

High pressure steam cleaners not only clean effectively, but steam kills micro-organisms within seconds without the use of chemical disinfectants.

Aussie Pumps has developed a range of hot wash & steam cleaners **specifically for Australian conditions**.

These machines are designed particularly with primary producers and earthmoving contractors in mind. A step up from European models, they feature triplex pumps, **4 pole motors**, steel chassis with 4 wheels, stainless steel covers and are made to last.

Cleaning with hot water is faster, uses less chemicals & offers a more hygienic result than using cold water.

The **Aussie Sizzler** Hot wash, single phase, temperatures to 80°C mean this simple unit delivers on performance & longevity.

The **Aussie Super Indy** range includes single and three phase steamers delivering steam up to 120°C and pressures to 3,000 psi.

The **Aussie Admiral range** ... the ultimate in hard working steam cleaners for high demand wash bays, with pressures as high as 4,000 psi for faster cleaning and temperatures to 130°C.
