HYDRO-LOOP...IT'S CLEAN & GREEN

The **Hydro-Loop system** means fast, efficient cleaning, with a unique 'Clean and Capture' system. You can comply with EPA regulations.

That's right...the site is not contaminated, but left in pristine condition! This is not just a machine ... it's a business opportunity without the ties of a franchise.

You have the support of **Aussie's** marketing machine and the freedom to build your business, your way.

You set your own price, work your own hours and keep all your profits.

Successful **Aussie Hydro-Loop Club** members are motivated, and have the drive to generate work from car parks, shopping centres, service stations and property managers.

What is the Aussie Hydro-Loop?

It's a self contained, trailer mounted, hot-water pressure washer with built in recovery unit, filters and tank. These units combine the cleaning power of high pressure and steam with a vacuum filtration system that collects the waste water, preventing it from entering storm drains.

The wastewater is collected via either the **Hydro Twister** flat surface cleaner or a Scupper placed at a dammed drain point. The water is then filtered through 5 stages and returned to the supply tank for reuse. System features ...

- ♦ **Aussie Hydrotek** engine drive industrial steam cleaner
- ♦ **Vacuum filtration system** with two stage motor, and two replaceable cartridge filters
- ♦ **1,000 litre poly impact resistant water tank** (750 litres on Junior)

- ♦ **Double axle trailer** with swivel jockey wheel and spare (registration approval pending). Junior version is mounted on a single axle trailer.
- ♦ **Double stacker hose reels** (US made) ...
 - ♦ One stainless steel reel with 30m of high pressure hose
 - ♦ One hose reel with 30 metres of low pressure garden hose.
- ♦ **Heavy duty 5,000 psi** rated hand gun
- ♦ **Stainless steel 1200mm single lance** with "Snap-On" nozzle kit
- ♦ **24.5" heavy duty Twister Vac** rotary floor cleaner (Option on Junior Loop)
- ♦ **1½" mesh strainer** with bleed valve, 60 micron
- ♦ **1.8m rubber, sand filled boom**, 3m sand dam tubes, sand not included
- ♦ **50mm x 15m spiral vacuum hose** with scupper attachment (galvanised vac hose reel on Maxi)

HYDRO-LOOP JUNIOR

Extra mobile, for fast set up & cleaning

- ◆ Aussie Hydrotek engine drive industrial steam cleaner
- ◆ Vacuum filtration system with two stage motor, and two replaceable cartridge filters (NEW AZV88)
- ◆ 750 litre poly impact resistant water tank
- ◆ Single axle trailer
- ◆ A stainless steel high pressure hose reel
- ◆ Package includes containment berms, scupper & vacuum hose
- ◆ Optional 24.5" heavy duty Twister Vac rotary floor cleaner to clean & recover wastewater

Specifications

	Safety Class	Pressure	EWP with turbo	Flow	Max Temp	Engine
HSC40005HAF#	A	4,000 psi (275 bar)	6,485 psi	20 lpm	130°C	Honda GX630

Stock codes & pricing

	Dimensions (LxWxH) m		
HSC40005HAF#	HSC40005HAFVRJN	3.7 x 2 x 1.8	poa

HYDRO-LOOP MAXI

Heavy duty systems suited to large jobs

Specifications

	Safety Class	Pressure	EWP with turbo	Flow	Max Temp	Engine	Pump
Petrol version							
HSC40005HAF#	A	4,000 psi (275 bar)	6,485 psi	20 lpm	130°C	Honda GX630	Bertolini TTK 2130
Diesel versions							
HSCX40005DG	A	4,000 psi (275 bar)	6,485 psi	20 lpm	130°C	Kubota 17HP	Interpump TSF 1819

- ◆ Aussie Hydrotek engine drive industrial steam cleaner
- ◆ Vacuum filtration system with two stage motor, and two replaceable cartridge filters (NEW AZV88 ... more power for longer recovery lengths)
- ◆ 880 litre poly impact resistant water tank
- ◆ Dual axle heavy duty trailer with tool box
- ◆ Two stainless steel hose reels; one with 30m of high pressure hose, and the other with 30 metres of low pressure supply hose
- ◆ 24.5" heavy duty Twister Vac rotary floor cleaner to clean & recover wastewater
- ◆ More Hydrotek options available ... call Aussie for more details

FOR TRUCK OR TRAILER MOUNTING GET WITH THE EPA REGS!

You can build your own EPA compliant, environmentally friendly clean and capture system.

You'll need a top quality Hydrotek steam cleaner with onboard generator and a vacuum assisted recover/filtration unit. Choose one of our compatible HSC series Hydrotek systems from p 44-45.

Hydro-Loop component checklist...

1. HSC Hydrotek (see p 42-43 ... petrol or diesel)

Model	Fill in required model & price	Price
-------	--------------------------------	-------

2. Water tank/skid set

HAW201	880 litre tank with support straps	\$2,611
--------	------------------------------------	---------

3. Vac recovery system

HAZV88	includes filtration system & 15 metres of vac hose	\$12,329
--------	--	----------

4. 24.5" ss flat surface cleaner

HANTV5	with vac recovery port	\$5,064
--------	------------------------	---------

5. High pressure hose reels & hose

A.	A4418SS-REEL + AHW06K2414X2X30	5,000 psi stainless steel hot water reel with 30m non marking hot water high pressure hose	\$1,675
----	--------------------------------	--	---------

or B.	A4418SS-REEL+ AHW06K2414X2X50	5,000 psi stainless steel hot water reel with 50m non marking hot water high pressure hose	\$1,979
-------	-------------------------------	--	---------

NB. FREE whip hose supplied with all orders for complete system, customer to specify length (max 3m)

6. Basic plumbing kit

	including suction filter & couplings, details available on request	\$1,272
--	--	---------

7. Stand-by filter kit

HASF01	additional set of filters ready to swap in as required	\$761
--------	--	-------

FREE installation guidelines, footprint & recommended trailer spec available, suitable for installation by any competent engineering workshop

HANTV5

REPLACEMENT FILTERS & BERMS FOR RECOVERY UNIT

Part Number	Description	
HVFH07	Cartridge, 4.5" x 20", pleated polyester, 20 micron	\$127
HVFH10	Cartridge 4.5" x 20", 10 micron, pleated carbon	\$207
HVFH25	Cartridge, 4.5" x 20", string wound, 20 micron	\$66
HVFH50	Cartridge 4.5" x 20", string wound, 50 micron	\$66
HVB040	Oil skimmer bag	\$181
HVFB41	Duo flow dirt bag	\$110
HVFB05	Bag filter 7 x 32 - 5 micro (fits on tank lid)	\$55
HVFB85	Capture strainer bag, 800 micron (optional - for recovery only mode)	\$26
HASF01	Filter start up pack, complete series of filters	\$761
HMEV15	Vacuum motor 115v AC	\$542
HPS120	Transfer pump 12v	\$861
HDHV20	Vacuum hose 15 metres x 2"	poa
HZMAT6	Sand berm 10' - sand not included	\$132
HATP75	Vacuum scupper pick up device 12"	\$408
HZMAT7	Deluxe sand berm 6' - sand not included	\$392
HATP40	Hydro vacuum arch, 6' ground pick device	poa

Always be armed with an extra filters for fast change out when on site.

The HVFB41 duo-flow dirt bag works as you debris catcher when recovering and processing. Switch to HVFB85 strainer bag when capture pump only is used.

HZMAT7 Deluxe berm for water retention and recovery using HATP75 (scupper)

HASF01 Start up filter kit contains:

\$761

- 2 x HVFH07 Pleated cartridge filter 4.5" x 20", 20 microns
- 1 x HVF10 Carbon cartridge filter 4.5" x 20", 10 microns
- 1 x HVFB05 One bag filter for water tank - 7 x 32 - 5 microns
- 3 x HVFB41 Duo flow dirt bag, 400 micron mesh top, 100 micron bottom mesh bag
