'BIG BERTY' BERTOLINI TRIPLEX PUMPS ... THE HEART OF AN AUSSIE

TTL & KTL SERIES (slow speed, gearbox drive)

Features Designed for Performance & Longevity

1. **High pressure seals** made up of special compound for wear resistance and Teflon reinforced anti-extrusion ring. Superior sealing system for water up to 74°C.
2. **Rapid action, mirror finish 316 stainless steel check valves** prevent corrosion.
3. **Smart crankcase** with high thermal conductivity & pronounced fins to disperse heat. Lower running temperatures extend seal & pump life.
4. **Large Tenifer® treated stainless steel plunger rods** ... stronger, harder, smoother for longer seal life.
5. **High quality pure ceramic pistons** for years of uninterrupted high-pressure performance.
6. **Premium oversized bearings** for extended pump life. **Extra long forged steel crankshaft** for a solid coupling pump-motor/engine.
7. **Oversized hyper 328 Tonolli alloy connecting rods** (single piece) for extra strength & easier lubrication.
8. **Exclusive double "V" and "U" self-lubricating packing seals** with an elastomer designed to prevent water from contaminating the oil in the crankcase. This gives years of leak-free operation.
9. **Low stress valve caps** ... eliminates water leaks & thread failures, easier pump maintenance.
10. **High efficiency brass head** ... thicker walls to withstand high pressure.
