

AUSSIE GMP PUMPS ELECTRIC DRIVE HIGH PRESSURE TRANSFER ... 3 YEAR PUMP WARRANTY

Heavy duty cast iron, Ni Al bronze and cast 316 stainless steel electric drive pumps are designed for high pressure applications, available in a range of sizes from 1½" through to 3".

With flows up to 1250 litres per minute and maximum heads of 78 metres these pumps are powered by close coupled heavy duty, IP rated, two pole TEFC motors.

Features

- Close grained cast construction
- Open style impeller (except B-ZPMA version)
- Self primes from depths of 6 metres
- Replaceable suction port
- Close coupled to a heavy duty TEFC single or three phase electric drive motor rated
- Stainless steel motor shaft
- Simple pump design
- Carbon/Alumina seals standard, other seal options available
- Max temperature 70°C

Benefits

liquids.

- » Long trouble free life
- Passes small solids in suspension »
- Ready to pump in minimum amount of time »

They self prime from 6 metre depths making them

Stainless steel pumps are corrosion and abrasion

resistant and suitable for handling aggressive

ideal for any heavy duty industrial, mining or

agricultural process pump duty.

- Easy to replace, easy access to check valve for » servicing
- Electric motor convenience, compact and » requires minimal space. Motor can be easily disconnected without disconnecting pipework from pump.
- Corrosion resistance »
- Low maintenance
- Flexibility of handled liquids »

Applications:

Cast Iron

- High pressure water transfer
- Boom sprav
- Machinery wash down
- Spray irrigation
- Fire fighting
- Industrial process pumping

Ni Al bronze

- Bilge pump out
- Deck wash down
- Salvage pump
- Marine fire fighting

Cast 316 Stainless steel

- Acid & solvent
 - pumping
 - Industrial food waste
 - Ag chemical transfer
 - AdBlue transfer

2" G2TMK-A NI AL bronze
